#RESource2018

On behalf of the European Commission I am delighted to welcome you to the 2018 edition of RE-Source, Europe's leading corporate renewable energy procurement event.

Corporate sourcing of renewable energy will play a decisive role in delivering Europe's climate and energy objectives. The recent adoption of a binding EU-wide renewable energy target of minimum 32% for 2030 and specific provisions for the uptake of corporate renewable PPAs in new EU energy legislation provide a strong and positive signal to European companies and investors.

Much more needs to be done to unlock the huge untapped potential and increase the number of corporates currently sourcing renewable energy, from 100 to 100,000. The development of ambitious national frameworks promoting the uptake of corporate renewable energy and empowering citizens, communities and companies to play their full part in Europe's energy transition, will be paramount in this matter.

I wish you fruitful discussions and successful business contacts to accelerate the transition to a smarter, sustainable and more inclusive European energy system.

Paula Abreu-Marques

Head of Unit for Renewables and CCS Policy
at DG Energy, European Commission

WELCOME

DAY 1 • 20 November

- | | |
|---|--|
| 08:00 – 10:30
<i>Heian</i> | Invitation only:
Formal matchmaking meetings
for clean energy buyers (hosted
buyers) and sponsors |
| 10:30 – 11:00 | Official registration
and welcome coffee |
| 11:00 – 12:30
<i>Ballroom</i> | Opening session

15:30 – 18:00 Networking drinks

Facebook Live Studio:

Facebook will be onsite, streaming live videos of the conference sessions, panel discussions and interviews with key players throughout the event.

#RESource2018

“ For us at Enel Green Power, the future of energy will be renewable. Our PPAs are tailor-made for each customer and are designed to actively and resiliently respond to normal changes that take place, over decades, in the life of a company. Whatever way you look at it, PPAs make business sense. ”

Javier Vaquerizo
Head of Commercial Office, Enel Green Power

“ Green up and boost your business with ENGIE!
Active in the whole value chain from project development to 24/7 renewable energy supply, ENGIE builds for you the most competitive tailor-made solutions you need. ”

Edouard Néviaski
CEO, ENGIE Global Energy Management

“ Building a carbon-free grid is an urgent global priority, and we're excited to be playing a role in accelerating Europe's clean energy transition.

As the world's largest corporate buyer of renewable energy, we'll continue to do our part to scale renewables in Europe through additional transactions and by working with groups like RE-Source. ”

Marc Oman

EU Energy Lead, Google

“ Iberdrola is committed to staying ahead of the energy transition, tackling the challenges posed by climate change and the need for clean electricity. We are signing PPAs

not just because it's good for business – it's good for the planet too. ”

Pablo Collado

RES Products and Service Director, Iberdrola

“ At Microsoft, we believe in a future powered by clean energy. We’re creating that future by investing in new renewable energy projects, creating new deal structures to open up markets to all, and introducing new technology solutions to storage and grid management. ”

Vanessa Miler
Renewable Energy Strategist, Microsoft

“ Since 2015 over 21 GW of PPAs have been signed worldwide by the most forward-thinking companies. RES is proud to have supported many of them. PPAs are a clear way for companies to safeguard against future energy prices, achieve sustainability goals and create goodwill for their organisation. ”

Ivor Catto
